

PROUDLY MANUFACTURING COMMERCIAL FLOORING THAT IS...

Health + Sustainability Attributes

COMPLIANCE AND CERTIFICATIONS

OUR PRODUCTS

Since 2014, Durato has been committed to innovation in the flooring industry, leading to such advances as the QXT Wear Layer and the Climate Guard Core. Durato products inspire spaces with viable economic solutions creating exceptional value and integrity that result in improved Life Cycle costs for owners and operators.

Making better products starts with the highest quality ingredients, including UV stable waterbased paints, titanium embossing plates and virgin raw materials, extracted with care and diligence for the environment. Durato is proud to manufacture Red List Free products to ensure the health + wellness of our employees, the flooring industry and our global community.

COMPLIANCE AND DECLARATIONS

Transparency is of the utmost importance to Durato. We published a Health Product Declaration for our product lines to give our clients confidence that the materials we use are non-toxic.

Our products are:

- FloorScore Certified
- Tested under California Department of Public Health (CDPH) Standard Method v1.2 CARB II Compliant
- Prop 65 Compliant
- Red-List Free

CERTIFICATION PROGRAMS

The Durato SPC product line can contribute to the following certification programs:

USGBC - LEED v4; v4.1
